

For over 40 years, we at ABBOTT have focused on the science of nutrition. Our formulas have been developed with leading scientists and several clinical studies. When it comes to nutrition, we maintain a high standard and continue to develop products and innovations that provide scientifically formulated nutritional supplements for those who are always trying to improve.

As one of the 130 countries Abbott Laboratories has a presence in, Abbott Nutrition South Africa first opened its doors on the 9th July 1940. For more than 70 years, Abbott Laboratories has remained committed to the highest standards of quality, excellence, and innovation. As leaders in science-based nutrition, we continue to support your nutritional needs throughout life's stages. Abbott South Africa is proud to bring its beneficial products and services to the people who need them.

Abbott Nutrition: over 100 years of trustworthy and science-based nutrition

Founded to focus on innovative nutritional products, Abbott Nutrition has built its reputation on nutritional excellence through solid scientific advances. We are a world leader in the field of nutrition science, research and development. Abbott Nutrition is a division of Abbott, the global healthcare company. Every day, our team of global scientists work hard to discover and develop nutritional products and solutions that improve the quality of life for people of all ages. Health professionals rely on us to provide state-of-the-art nutritional products that meet changing nutritional needs. We meet their expectations by providing a wide range of nutritional products that help children to grow, work to keep bodies strong and support the unique needs of older adults.

Your partners in nutrition

For more than 15 years, Abbott has been focused on pioneering scientific research in the ingredient HMB, which helps to support muscle health.

With 45 years of scientific evidence and backed by more than 30 clinical studies, Ensure® products have been helping to nourish adults, giving them the strength and nutrition to live the life they love!
